

## Intrasense attends the 2023 « Journées Francophones de Radiologie »

Montpellier, France, September 13, 2023 at 5:45 p.m. CEST

Intrasense (FR0011179886 - ALINS), specialist in medical imaging software solutions and developer of Myrian<sup>®</sup>, announces its attendance in the 2023 “Journées Francophones de la Radiologie” (JFR), where new innovative solutions incorporating artificial intelligence will be presented.

### The power of seamless AI integration

The new version<sup>1</sup> of the Myrian<sup>®</sup> solution will be presented at this leading trade show for the French-speaking imaging profession, with new features enriched with artificial intelligence and a more intuitive workflow, enabling radiologists to focus their diagnostic on the essential: the patient.

Myrian<sup>®</sup> now natively integrates several powerful artificial intelligence algorithms, simplifying image analysis, securing diagnosis and facilitating therapeutic follow-up. New AI-enhanced applications dedicated to lung monitoring, prostate cancer and brain structures will be highlighted at JFR.

*"The latest additions to Myrian<sup>®</sup> mark a structuring milestone in our commitment to providing radiologists with cutting-edge solutions. Indeed, the integration of AI algorithms into our Myrian<sup>®</sup> solution demonstrates our ability to constantly innovate in order to support clinicians on a daily basis and pave the way for more personalized and efficient healthcare,"* says **Nicolas Reymond, Intrasense CEO.**

### Innovations showcased at JFR 2023

Intrasense will once again be taking part in this year Journées Francophones de Radiologie, the leading trade show for radiology professionals. The 2023 edition is dedicated to integrated diagnostics, and is expected to attract over 10,000 visitors between October 13 and 16, 2023. This must-attend event is an ideal opportunity to present Myrian's<sup>®</sup> significant advances and interact directly with the medical community.

The Intrasense team will be giving customized demonstrations of its solutions on stand **213A at the Palais des Congrès** (Porte Maillot - Paris). Visitors will have the opportunity to explore in detail the functionalities of the new version of Myrian<sup>®</sup>, and to discuss future innovations with our expert teams.

---

<sup>1</sup> The certification process for CE marking is underway.

## Partnerships and increased visibility

Once again this year, Intrasense confirms its commitment to the fight against breast cancer and the excellence of its clinical applications for women's imaging. Intrasense joins forces with its partner **Forcomed** to train radiologists in the organization of breast cancer screening and quality control in digital mammography during the JFR.

As a subsidiary of **Guerbet** since June 2023, Intrasense will benefit from an increased presence at the exhibition. Symposia, sessions and scientific communications on the results of studies including AI developed by Guerbet, will highlight their performance.

## About Intrasense

**A French expert in medical imaging since 2004, Intrasense develops and markets software platforms in 40 countries, facilitating and securing diagnosis, decision-making and therapeutic follow-up.**

Myrian®, an advanced radiology visualization solution, provides 1,200 healthcare establishments with clinical applications to help interpret all types of images. Since 2021, Intrasense has been developing a new platform dedicated to oncology, multidisciplinary and collaborative, to optimize patient care and follow-up.

A Guerbet Group subsidiary since June 2023, Intrasense continues to enrich its solutions by integrating artificial intelligence algorithms in medical imaging. Its teams work closely with healthcare professionals to help save lives.
